3.02 COMPENSATORY TIME

June 6, 2018

Page 1 of 1

As a public employer, the County may choose to provide compensatory time off in lieu of cash overtime compensation. Additionally, the County may elect to provide compensatory time for all employees or for only some employees. Employees designated to receive compensatory time will be requested to sign an agreement prior to the transition from cash overtime compensation.

Regular employees may not exceed compensatory time accruals in excess of 240 hours. Compensatory time will be awarded at time-and-a-half for each hour worked in excess of 40 hours in a work week. Law enforcement officers, corrections officers, and certified firefighters engaged in fire suppression may not exceed compensatory time accruals in excess of 480 hours. Law enforcement and corrections officers will be awarded at time-and-a-half for each hour worked in excess of 171 hours in a 28-day work cycle. Firefighters will be awarded at time-and-a-half for each hour worked in excess of 212 hours in a 28-day work cycle.

The use of compensatory time must be pre-approved by the department head. Compensatory time must be used before vacation time. It is the responsibility of the department head to ensure that all leave time is deducted from accumulated compensatory time first, if available.

It is the responsibility of each department head to manage compensatory time accruals and ensure that accrual maximums are not exceeded; therefore, each department head may designate times or days that compensatory time must be used. The County strongly suggests that department heads begin designating employee time off when 50% of accrual maximums have been reached.

Compensatory time accruals will be provided to each member of the Commissioner's Court each quarter. Accrued compensatory time will be paid in full on the last pay period of the County's fiscal year.

**ORDER SETTING SPEED LIMIT

(OAK VIEW RANCH)**
